Azerbaijan State University of Economics (UNEC) Doctorate Department.

Doctorate education

According to the Education Law of the Republic of Azerbaijan the doctorate degree is the highest level of higher education that not only provides the preparation of scientific and scientific-pedagogical staff but also ensures the advancement of qualifications and academic degrees.

The main purpose of doctoral studies is to prepare young, highly qualified scientific and scientific pedagogical staff in different fields of science in accordance with the State policy in the field of education considering the needs of society and the labor market.

Forms of education for doctoral programs

Doctoral studies are carried out through the Doctor of Philosophy and Doctor of Sciences degree programs on a full-time and a part-time basis.

Scientific and scientific-pedagogical personnel staff training in Ph.D program is also carried out through dissertation. Doctorate education is carried out on a state-funded or paid basis.

Duration of education

The duration of Ph.D. degree program is 3 years, and the doctoral degree program on a part-time basis and the dissertation degree program encompasses 4 years respectively. The duration of the Doctor of Science degree program is 4 years, and the Doctor of Science degree program on a part-time basis and the dissertation degree program constitutes 5 years separately.
