Letter of Commendation

I am delighted to write this Letter of Commendation for the new MBA Program at Azerbaijan State Economic University in recognition of achievements.

The new MBA Program at Azerbaijan State Economic University is a very high quality and large operation that is aimed to make the Program more relevant in today's world market place. The innovative curriculum of the Program is focused on designing and implementing a comprehensive and coherent well-planned collection of core and elective courses that fully satisfies the worldwide recognized requirements. The variety of choices and combinations of specializations enables students to define their educational objectives as narrowly or broadly as they like. The result of this rich curriculum is a great opportunity to select from eight specializations including management functions and topics such as marketing, finance, international business, securities, and accounting.

The Program will surely be able to attract the most talented students and to offer them an exceptional educational program. Its graduates will certainly be in demand in jobs in different industrial and business sectors across the region.

I wish the Azerbaijan State Economic University every success in the future and I am confident that the University will thrive under the new leadership.

Dr. Ilham Akhundov
