

UNEC

Education For  
All!

### Rector of UNEC prof. Adalat Muradov's appeal

My appeal is to young people with disabilities who need attention and have the right to quality education like everyone else. It is a duty of honor to treat every student who enters the big family of Azerbaijan State University of Economics with care. From July 2015, a center for students with disabilities was established at the university. Our goal is also to develop inclusive education in the university. I invite every young person with a disability who wants to become an economist to study at the university. It is your right to bear the name of an educated person of Azerbaijan for the sake of the happy future of our independent homeland, and every success of yours makes us happy. We will be very proud to see you in the UNEC family.

We would like to meet you at UNEC

## Objectives of the center

- to provide students with disabilities with all opportunities and resources for education;
- to create conditions for motivation and involvement of students with disabilities in the educational process;
- to organize additional educational courses for students with disabilities on a voluntary basis;
- to organize events for exchange of experience with centers of the same profile;
- to carry out educational work in various areas of the society;
- providing support and services to students with disabilities;
- to eliminate the problems of students with disabilities during the educational process;
- To cooperate closely with all structures of the university to provide the best services,
- To organize the joint activities of teachers and students in the direction of creating a fully inclusive educational environment at UNEC

[www.unec.edu.az](http://www.unec.edu.az)

## Services of the center

- Providing information about the center's services and opportunities, including the faculty and specialty where the student will study

- organization of trainings and meetings

UNEC students

- provision of teaching materials needed for students with disabilities in different formats (Braille, audio format, sign language).

- organization of trainings for professors and teaching staff participating in the teaching process of students with disabilities (professional experts are invited for this purpose)

- organization of participation of students with disabilities in various competitions (scientific, public, etc.), scientific seminars and conferences

- creation of a working group of student volunteers (specialists conduct training for volunteers on disability groups, etc.)

- determination of the lesson schedule for students with disabilities

- Ensuring students' participation in exams

## The center provides:

- Organization of participation of students with disabilities in various exchange programs (ERASMU. S+; Mevlana, etc.).
- ensuring the participation of students with disabilities in industrial experience in various specialties
- involvement of students with disabilities in the activities of student organizations
- provision of opportunities to participate in dual diploma programs

**The main goal of the center is to create all kinds of conditions for university students with disabilities and ensure their full integration into the educational process at the Azerbaijan State University of Economics.**

- to create favorable psychological conditions for the manifestation of special talents, abilities and intelligence of students with disabilities;
- to help students in self-confidence, respect, development;
- to help strengthen self-defense skills and solve psychological problems
