

MULTICULTURAL VALUES

AZERBAIJAN STATE UNIVERSITY OF ECONOMICS

Prayer Room at UNEC

Azerbaijan State University of Economics (UNEC) has established dedicated prayer rooms to support the spiritual needs of its students and staff, reinforcing its commitment to multicultural values. These spaces are designed to ensure both local and international students, as well as staff members, can perform their prayers comfortably and conveniently.

Fostering Religious Inclusivity and Spiritual Well-being at UNEC

While UNEC's central location offers easy access to nearby mosques and churches, the on-campus prayer rooms provide a welcoming environment that fosters inclusivity and respect for religious diversity. These rooms are open to individuals of various faiths, allowing them to practice their beliefs freely.

This initiative reflects UNEC's dedication to creating a supportive and tolerant environment, contributing to the spiritual well-being of its community while highlighting the university's emphasis on multiculturalism and inclusivity.
